

POOL PARTIES

To ensure your child and guests have a memorable party for all the right reasons, we request that you observe the following:

Supervising ratios

Pool parties for children under 5s

Children under 5 are required to have supervision of an adult who is within arm's reach at all times and their attention is fully focused on the child. Please remember that to provide supervision at arm's reach, you will be required to enter the water, so please come to the facility dressed appropriately. Providing personal supervision of children, particularly in an a party situation when the children are excitable is very demanding, therefore we require a 1:2 ratio for the under 5s

Pool parties for children under 10

Children under 10 require constant supervision by an adult. Supervision means you must clearly be able to sight **all** children at your party at **all** times. Remember that children can very excitable at a birthday party and may tend to move about in different directions. It is very easy to become distracted by other host duties like meet and greet, food layout and cake cutting. Please remember you are responsible for the supervision of all these children and therefore we require that you provide additional supervision at a ratio of 1:4

Unsupervised children will be removed from the water

Additional Information

- Knives are **not** permitted on pool deck for safety reasons, only plastic cutlery is permitted. Remember to bring matches if you need to light candles.
- Extra tables may be available should you require them.
- Unfortunately due to food safety regulations, should you choose to bring you own food we are unable to provide refrigeration or heating.
- As you leave remember to take all your belongings and place any rubbish in the bins provided
